[Vm.jinstall.vmx.14.1r1.10.domestic](#)

The screenshot displays a VMware Workstation interface with several windows open. The main window shows a network topology for a 'quad-juniper-vmx-gns3' environment. It features four VMs (VMX1, VMX2, VMX3, VMX4) connected to a central L2/L3 switch. The topology summary shows VMX1 and VMX2 connected to the switch, and VMX3 and VMX4 connected to each other and the switch. The switch is connected to a physical network interface (VMX4). The CPU History window shows the following data:

Process	CPU1	CPU2	CPU3	CPU4
My Computer	14.0%	18.3%	17.1%	15.5%

The Network History window shows the following data:

Direction	Total Received	Total Sent
Receiving	0 bytes	0 bytes
Sending	0 bytes	0 bytes

The CPU History window also shows the following data:

Process	Memory
My Computer	1.5 GB (9.4%) of 15.7 GB

The CPU History window also shows the following data:

Process	Memory
My Computer	1.5 GB (9.4%) of 15.7 GB

The CPU History window also shows the following data:

Process	Memory
My Computer	1.5 GB (9.4%) of 15.7 GB
